Industry News

The industries set to fly and fall in 2014

Source: smartcompany.com.au

As Australian companies usher in the new year, IBISWorld reveals the five industries expected to soar and the five expected to sink.

Rising LNG prices could hurt Australian GDP

Source: processonline.com.au

Australian manufacturers are calling on the government to intervene and cap natural gas prices, Bloomberg has reported. As more and more gas is exported to Asia, Australian buyers are paying more than twice as much as they did a decade ago, energy research company Wood Mackenzie says.

Gas market is delivering for all Australians

Source: industrysearch.com.au

The Australian government's latest review of the gas market, the 'Domestic Gas Market Study', released 3 January 2014, shows the market is indeed working to supply natural gas for both domestic and export use.
