Support section, height-adjustable for support arm systems – CP 6212.060

created: 01.10.2020 on www.rittal.com/com-en

Product description

Description:	The new height-adjustable support section ensures that you always have a good view of the key parameters in human/machine interaction. On the wall side, the system can be fitted directly to the components in the CP 120 support arm system without any further adaptation, and on the enclosure side, either to support arm system CP 60 or CP 120, depending on the model.
Benefits:	<ul style="list-style-type: none">Superior ergonomic design, thanks to adjustment range 600 mm (± 300 mm)Support arm holds securely in any positionAdditional fixing with clamping lever if requiredPrecise coordination to the suspended load via an adjusting screw at the front of the support sectionAdjusting screw can be accessed without dismantling any componentsLarge cable tray and cable routing at the rotation points for safetyRemovable side panel for easy access to cable entryTilting angle of the mounted enclosure is identical in every height positionCables with connectors such as DVI, VGA are easily insertedBroad weight range from 4 to 60 kg with just two systems. (Weight range applies to configured enclosure and vertical support section.)
