产品描述(包括使用场所) Product Description (utilization of product) :

DK 7010.000 is a Central processing unit for monitoring of IT networks. The Processing Unit is the central product of the Rittal enclosure monitoring and control system for the electronic monitoring of enclosures and server racks. It provides two Ethernet LAN interfaces in conjunction with a web site for user communication. The CAN bus interfaces allow a wide range of sensors, actuators and systems for access monitoring to be connected. All sensors initialise them-selves automatically after connection to the CAN bus system.
