

Rittal – The System.

Faster – better – everywhere.

► Custom from Standard Modification Program for Carbon and Stainless Steel Wallmounts, Junction Boxes and TS 8 Enclosures

Rittal builds enclosures. In fact, we build thousands of the most innovative enclosures world-wide, every day.

We also realize that you may have a project that demands something different... and we know how to build that too.

Introducing Rittal's express build and modification program for wallmounts, junction boxes, and TS products in both carbon and stainless steel.

Rittal can meet virtually every specification your project may require. With dozens of enclosures and hundreds of accessories, Rittal can turn your project around quickly, and if modifications are needed our team of specialists is ready to design the custom changes and enhancements you require.

By soliciting customer feedback, Rittal has streamlined the order placement process. Pricing and the specifying process have all been refined and simplified with one goal in mind, delivering the perfect enclosure to the customer as fast as possible.

FRIEDHELM LOH GROUP

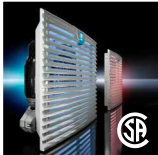

We'll modify to your exact specifications

To place an order, reference part number xxxx.xxx. If holes and/or cutouts are required, please specify and attach drawings (DWG or DXF file type).

Please note that Rittal's drawing files are available at www.rittal.ca.

Our state-of-the-art Perforex machine can modify stainless steel or carbon steel wallmount, junction boxes, and TS enclosures per your specifications. We'll apply standard holes and cutouts for both enclosures and mounting panels.

Flex-Block

Customization is a necessity for most installations

Provide us with detailed drawings and explanations outlining which accessories you need and where you want them.

We'll install:

- fans and filters
- heat exchangers
- air conditioners
- partial doors
- cable management systems
- print pockets
- partial mounting panels
- chassis and rails
- lights and switches
- conduit and cable glands
- 19" installations
- HMI products
- access ports/flaps

If no location is specified, we'll install accessories in default locations for the following:

- plinth/base/legs
- doors and walls
- suiting kits
- handles and inserts
- roofs and cover plates
- FMD hardware
- dead-front kits
- hinges and door stops
- full-size mounting panels

Fast Mod WM Cut-out Program

If you require cut-outs only in WM series wallmount enclosures, we now have 3 service levels available for fast turnaround.

Standard Service - \$50 per surface regardless of # of holes. Lead time will be quoted at time of order.

Gold Service - \$75 per surface regardless of # of holes for up to 10 enclosures (10 WM/JB Painted MAX or 5 WM Stainless MAX) shipped in 5 days. A usable drawing must be provided, and must be based on our model, otherwise it defaults to 7 business days or longer.

Platinum Service - \$100 per surface regardless of # of holes for up to 5 enclosures (5 WM/JB Painted MAX / 3 WM Stainless MAX) shipped in 3 days. A usable drawing must be provided, and must be based on our model, otherwise it defaults to Gold.

- Based on enclosure availability in stock at time of order
- Shipping lead time is from date of receipt of approved drawings
