

TX CableNet

The perfect solution for your network infrastructure

Taking cable management to a new level.
From stock.

Discover the TX CableNet

With our new TX CableNet, we can help you overcome the daily challenges of network infrastructure applications.

Benefit from the fast availability and flexibility of this product solution, which enables you to react more quickly to changing requirements and market-place demands.

The perfect solution for your network infrastructure!

Take advantage of our comprehensive range of accessories to configure your very own TX CableNet – tailored to your specific application.

The modular construction also ensures full buying flexibility.

You need a fast solution? No problem! The pre-configured options – already pre-equipped with a base/plinth and practical cable management – arrive ready for immediate use.

Your benefits:

- Ready to use: The new network rack solution can be set up without further accessories to enable immediate operation
- High flexibility thanks to the construction of the frame with a 25 mm pitch pattern and a comprehensive range of accessories
- Available from stock
- Matching range of 24 & 42 U racks for all your network infrastructure applications
- Vented and glazed rack doors available

Take advantage of our expertise for your network.

Technical features include:

- Handle for profile half-cylinder locks as an accessory
- Baying of several racks possible
- Load capacity up to 500 kg
- Full depth variability of the 19" mounting angles

Simple cable routing both internal as well as into the rack thanks to a spacious roof design and large open floor area in the base. Individual cable routing has never been simpler.

The necessary flexibility is also guaranteed when it comes to climate control: Active or passive cooling? The new TX CableNet can handle both!
