

X good reasons to choose X

- Fast, efficient planning and installation with simple system assembly based on our innovative click system
- Modular system means a streamlined range of variants
- Full availability of digital product data in the Eplan Data Portal
- Save up to 30% engineering time with simplified system planning
- Save up to 50% assembly time by eliminating manual wiring
- Continuous contact hazard protection to IP 2XB, upgradable to IP 4X at the front
- Pre-tested short-circuit resistance for durability up to 52.5 kA
- Suitable for applications in the range up to 1,000 V AC and 1,500 V DC
- Designed for global use with approvals to IEC 61439 and UL 508A
- Professional service at every stage of the product lifecycle

RiLineX is the result of more than 40 years of experience in the power distribution sector. The new 60 mm busbar system platform was developed specifically for fast, reliable power distribution across a range of applications, including industry, building and IT infrastructures. Licence-free and manufacturer-neutral, it delivers maximum flexibility and ensures that your company is perfectly poised to tackle the challenges of the energy sector. Discover more about the benefits you can enjoy with **RiLineX**.

Panel-building
is our obsession

RiLineX – The Power Platform will be available from Q1 2025 and boasts many more advantages for your power distribution! For further information, simply scan the QR code or contact us directly via our website at www.rittal.com/contact. We will be happy to explain how **RiLineX** can be tailored to your individual requirements.
