

# Rittal e-business

## Product ordering: Simple. Fast. Efficient.

### Order it today – Use it tomorrow!

Rittal offers a broad range of digital ordering options designed to optimise your purchasing experience. Place your order conveniently and efficiently in the Rittal online shop or via digital interfaces such as EDI. You can also use RiPanel or other Rittal configurators to precisely implement your individual requirements, then place your order directly in the online shop.

**Delivered to  
you within  
24 hours.**

## Electronic Data Interchange – The smart way to order

The EDI interface allows you to order Rittal products directly from your ERP system – it's automatic, error-free and seamlessly integrated into your existing ordering process.

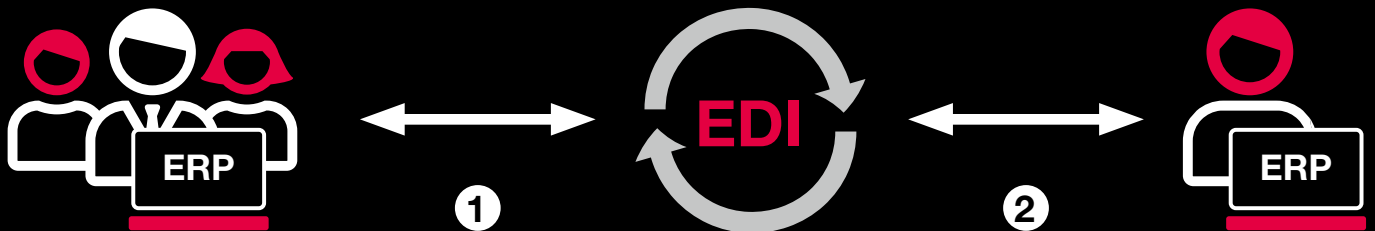

The EDI interface supports the direct, digital exchange of orders, confirmations, shipping notifications and invoices between your ERP system and Rittal. This eliminates manual data entry, minimises errors, and makes your ordering processes seamless, faster and more efficient, without any additional effort whatsoever.

### Your benefits:

- **Order quickly and easily**
- **Directly** from your in-house ERP system
- **Efficient processes** and minimal errors with automated data processing
- **See the status** of your orders and deliveries in real time
- **Cut costs** and relieve pressure on staff
- **Exclusive support** from Rittal experts to help you link your ERP system

### The EDI ordering process in two simple steps

#### 1. Submit the order from your ERP system –

Your order is automatically transmitted directly to Rittal.

#### 2. Automatic confirmation and processing –

Receive your order confirmations, shipping notifications and invoices in real time – fast, error-free and seamlessly integrated.
