Monitor/keyboard

Connection example SSC premium 8/32

Catalogue 33, page 781
Modular KVM for data centres. Up to 8 users may access the connected servers in parallel and independently from one another. Remote access via "KVM over IP" is also supported. Furthermore, the Rittal sockets may also be switched via the OSD of the SSC premium. This facilitates a "hard-reboot" of the servers from anywhere in the world.
