Für die hier beschriebenen Sammelschienenkomponenten steht diese Montageanleitung als Download unter www.ittal.de zur Verfügung. Für Schäden, die durch Nichtbeachtung dieser Anleitung entstehen, übernehmen wir keine Haftung. Zusätzlich gelten auch die Anleitungen des verwendeten Zubehörs sowie die VX25 Ri4Power Montageanleitung.

Bitte beachten Sie die Sicherheits- und Warnhinweise in der Montageanleitung „VX25 Ri4Power – Schalt- und Energieverteilanlagen-System“.

Montageanleitung VX25 Ri4Power – Schalt- und Energieverteilanlagen-System

Assembly instructions VX25 Ri4Power – Switchgear and power distribution system

Notice de montage VX25 Ri4Power – Distribution de courant

DE/EN/FR

EN

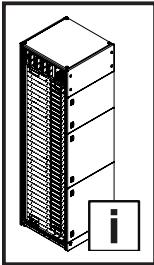

These assembly instructions for the described busbar components can be downloaded from www.ittal.com. We cannot accept any liability for damage associated with failure to observe these instructions. The instructions for any accessories used, together with the VX25 Ri4Power assembly instructions, also apply.

Please observe the safety and warning notes in the “VX25 Ri4Power – Switchgear and power distribution system” assembly instructions.

FR

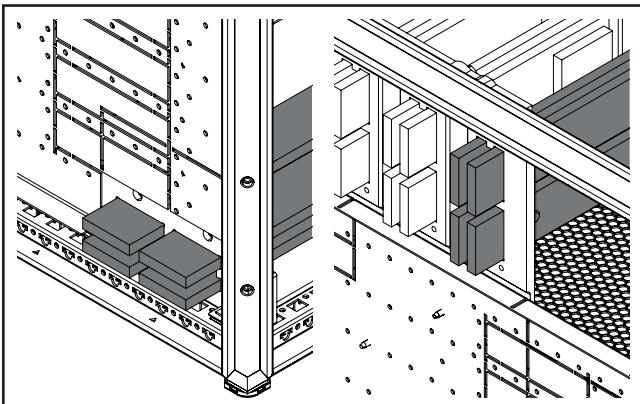

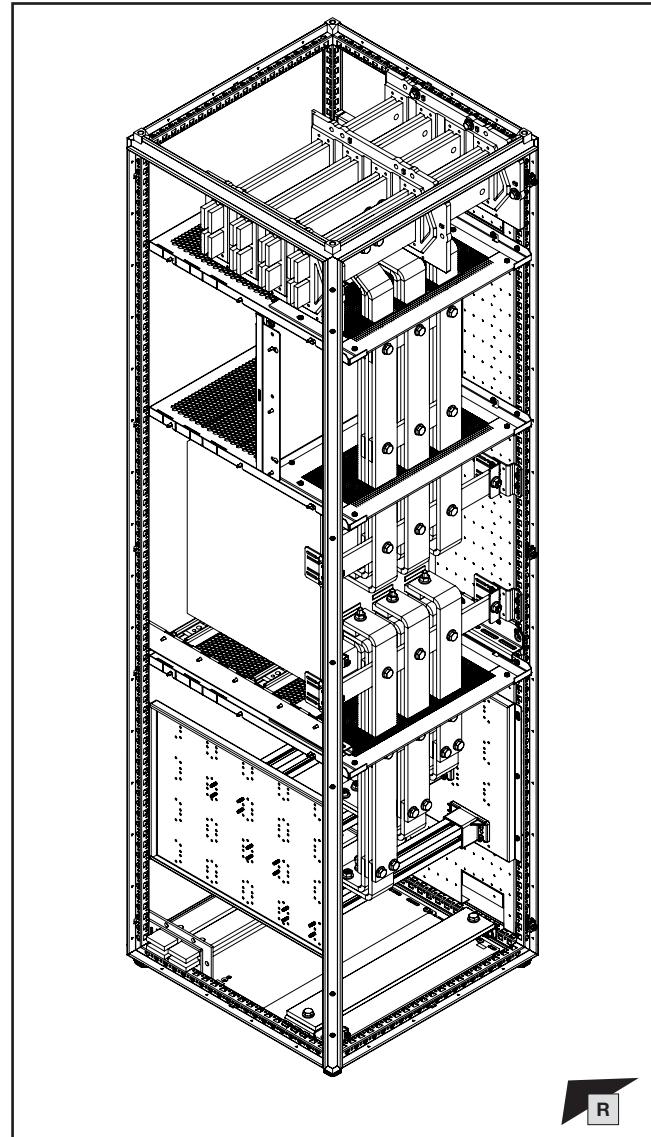

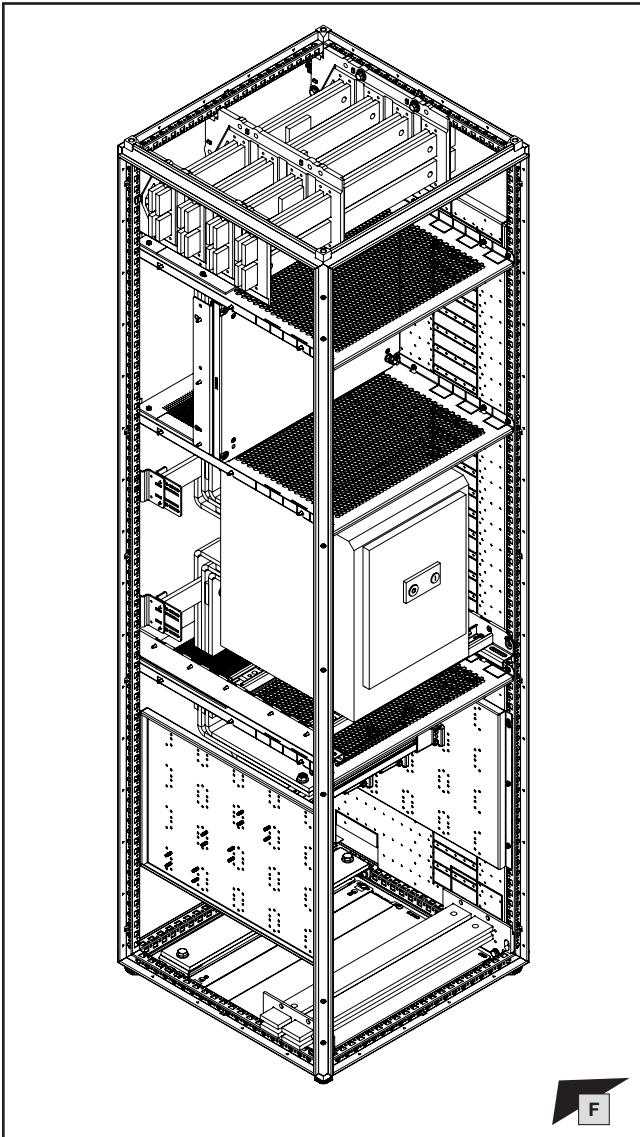

La présente notice de montage pour les composants du jeu de barres mentionnés ici peut être téléchargée sur le site internet www.ittal.fr. Nous déclinons toute responsabilité en cas de dommages imputables à la non-observation des instructions contenues dans ce document. Veuillez également respecter les instructions relatives aux accessoires utilisés ainsi que la notice de montage VX25 Ri4Power.

Veuillez respecter les consignes de sécurité et les avertissements figurant dans les instructions de montage « VX25 Ri4Power – Distribution de courant ».

1. Montage 3-poliges HSS 1. Fitting the 3-pole MBS 1. Montage du jeu de barres principal tripolaire

- 1.1 Leistungsschalterfeld 600 mm tief / Haupt sammelschiene im Dachbereich
- 1.1 Air circuit-breaker section 600 mm deep / main busbar in the roof area
- 1.1 Zone des disjoncteurs de puissance d'une profondeur de 600 mm / jeu de barres principal sous le toit

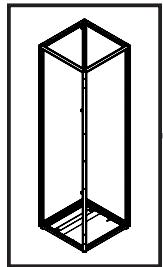

Hinweis / Note / Remarque

Neutralleiter N nach Wahl des Anlagenbetreibers im Bodenbereich oder im Dachbereich (siehe Kapitel 3). Montage beider Varianten wird im Kapitel 1 parallel gezeigt.

Neutral conductor N as chosen by the plant operator in the floor area or in the roof area (see chapter 3). The assembly of both variants is shown in parallel in chapter 1.

Neutre N dans la base ou sous le toit, selon le choix de l'exploitant de l'installation (voir chapitre 3). Le montage des deux variantes est décrit au chapitre 1.

Hinweis / Note / Remarque

Vorbereitende Arbeiten: siehe o. g. Anleitung, Kapitel „Demontage Flachteile“ und „Vorbereitung Montage Frontblenden“.

Preparatory work: see above mentioned assembly instructions, chapter "Dismantling panels" and "Preparation of mounting front trim panels".

Pour les travaux préliminaires, voir les chapitres « Démontage des pièces plates » et « Préparation du montage des faces avant » de la notice de montage ci-dessus.

Hinweis / Note / Remarque

Für Schutzeigenschaft Störlichtbogenklasse A/B Montagereihenfolge in den entsprechenden Kapiteln der o. g. Anleitung beachten.

For arcing class A/B protection, please follow the assembly sequence as set out in the relevant chapters of the aforementioned assembly instructions.

Pour la protection contre les arcs électriques de catégorie A/B, suivez la séquence de montage indiquée dans les chapitres correspondantes des instructions ci-dessus.

Hinweis / Note / Remarque (X)

Der „schwimmende“ Sammelschienenhalter (A) wird abhängig von der Stromkurzschlussfestigkeit benötigt. Die Berechnung findet in der Online-Berechnungssoftware „RiPower“ im Niederspannungsschaltanlagen Konfigurator statt.

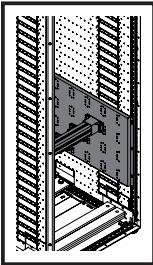

The "floating" busbar support (A) may be required depending on the short-circuit resistance, which is calculated by the online calculation software "RiPower" in the low-voltage switchgear configurator.

Le support de jeux de barres « flottant » (A) est requis en fonction de la résistance aux courants de courts-circuits. Le calcul est réalisé via le logiciel de calcul en ligne « RiPower » du configurateur de TGBT.

Hinweis / Note / Remarque X

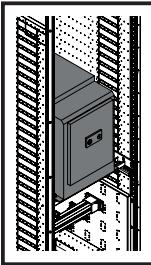

Die Maße „D1“ und „D2“ werden mit Hilfe der Online-Berechnungssoftware „RiPower“ im Niederspannungsschaltanlagen Konfigurator ermittelt.

The dimensions "D1" and "D2" are calculated using the online calculation software "RiPower" in the low-voltage switchgear configurator.

Les dimensions « D1 » et « D2 » sont déterminées à l'aide du logiciel de calcul en ligne « RiPower » du configurateur de TGBT.

Hinweis / Note / Remarque

Weitere Montageschritte: siehe Kapitel 1.14

Further assembly steps, see chapter 1.14

Étapes de montage suivantes : voir chapitre 1.14

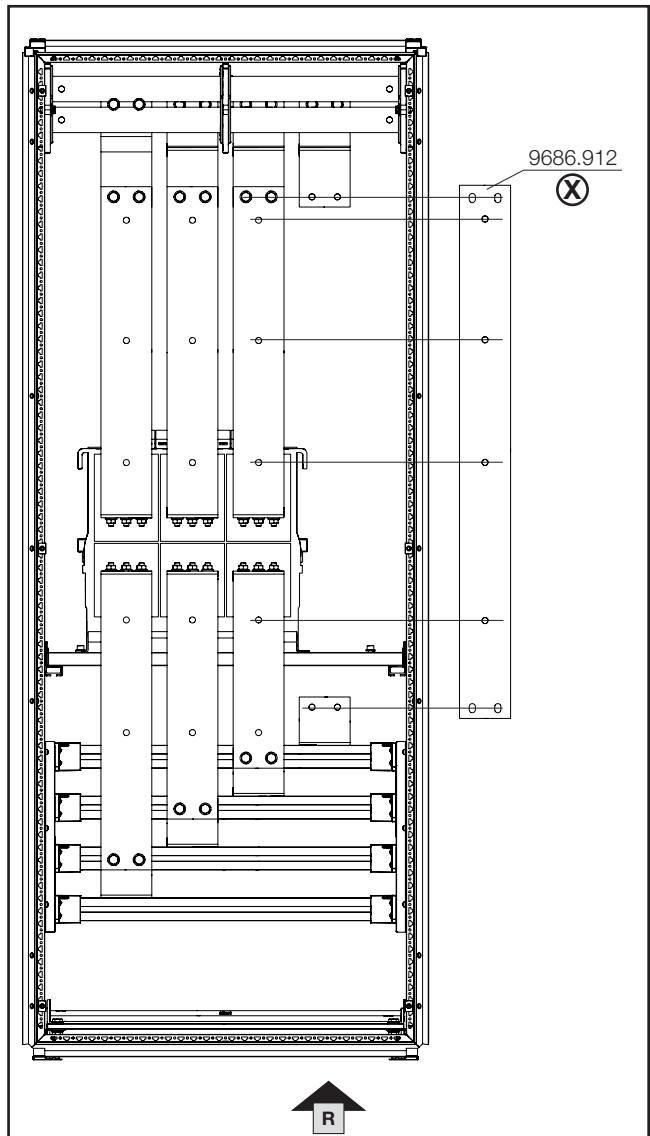

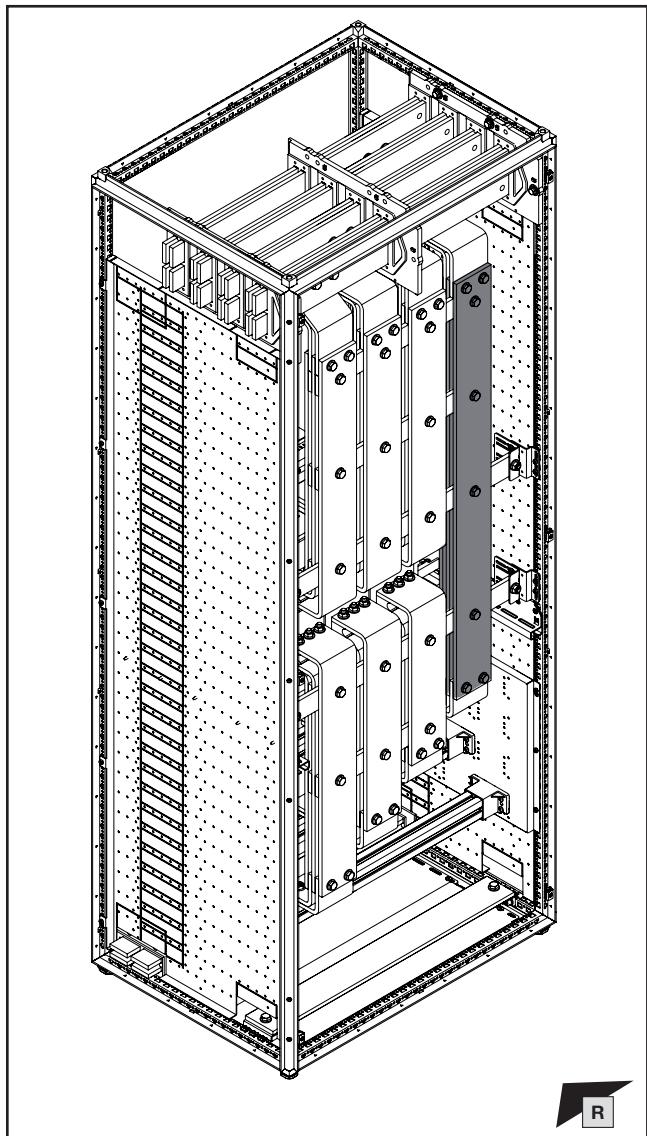

DE EN FR

3. Montage 4-poliges HSS N ungeschaltet
3. Fitting the 4-pole MBS N unswitched
3. Montage du jeu de barres principal tétrapolaire Neutre non commandé

Hinweis / Note / Remarque

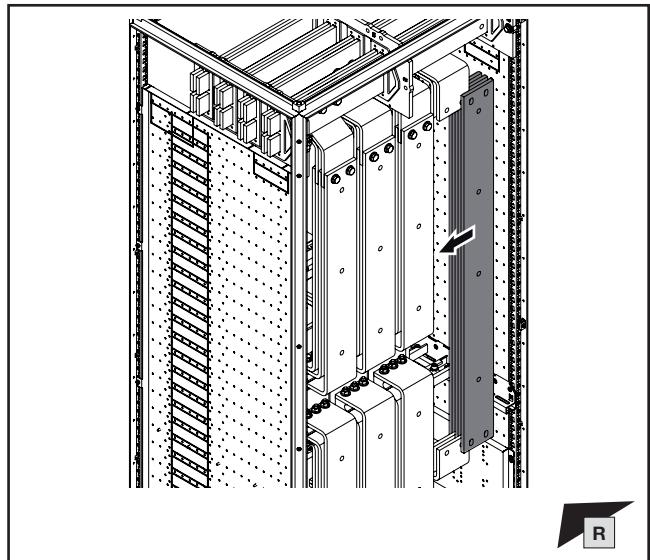

Die Länge der Sammelschienen wird mit Hilfe der Online-Berechnungssoftware „RiPower“ im Niederspannungsschaltanlagen Konfigurator ermittelt.

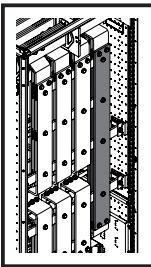

The length of the busbars is determined using the online calculation software "RiPower" in the low-voltage switchgear configurator.

La longueur des jeux de barres est déterminée à l'aide du logiciel de calcul en ligne « RiPower » du configurateur de TGBT.
