### **Rittal Releases TS 8 Disconnect Enclosure. Designed and Constructed to Expand, Adapt and Easily Integrate with Diverse Manufacturing Requirements.**

Schaumburg, IL – Rittal Corporation, the world's largest electrical enclosure manufacturer, has announced the newest addition to its acclaimed TS 8 freestanding enclosure series. The flexible, modular TS 8 Disconnect Enclosure is listed UL Type 12, accepts most commercially available operator handles and allows for easy integration into any industrial system.

Designed and built in Rittal's Urbana, Ohio facility, this TS 8 Disconnect Enclosure is tailored for the specific demands of North American applications. New features like adapter plates for high and low amperage operator handles, simplified handle interfacing hardware, and a slimmer flange trim door make in-the-field build-out easier, maintenance simpler, and expanding installations a snap.

The TS 8 Flange Mount Disconnect Enclosure offers:

- Enhanced and greatly simplified hardware installation
- A rigid trim door that accepts a variety of commercially available high and low amperage operator handles
- Optional high amperage adapter plate allowing future system upgrade without performing additional cutouts in the field while maintaining Type 12 rating
- Blank adapter plate option for non-disconnect conversions or relocation of operator handles
- Easy-to-follow installation instructions for a variety of operator handle manufacturers
- Reduced-width hinged trim door design for more usable panel mounting space utilization
- Hinged and side access behind the operator handle cutout to make mounting the operator handle and connecting hardware easy
- Expandable and modular enclosures compatible with all standard TS 8 accessories

Production of the TS 8 Disconnect Enclosure is at Rittal's Urbana, Ohio manufacturing facility. Enclosures are stocked in Urbana, Ohio as well as warehouses around the United States. To learn more or place an order, visit [www.rittal.us/TS8Disconnect](http://www.rittal.us/TS8Disconnect) or call 800-477-4000.

## **Rittal Corporation**

Rittal Corporation, headquartered in Schaumburg, Illinois, is the U.S. subsidiary of Rittal GmbH & Co. KG and manufactures the world's leading industrial and IT enclosures, racks and accessories, including climate control and power management systems for industrial, data center, outdoor and hybrid applications. Rittal's off-the-shelf standard, modified standard and custom-engineered products are recognized throughout the world as innovative, high quality solutions for practically any industrial or IT infrastructure application — from single enclosures to comprehensive, mission critical systems.
