Secarex cutting centre

No lengthy times spent on measuring and cutting, and no complicated handling – the Secarex cutting centre is convenient to use and cuts wiring ducts, cable duct covers and support rails to length quickly, precisely and reliably. Data can be accepted from various CAD systems or taken from the Perforex workshop programming. The cutting centre contributes to improved quality, an optimisation of cutting waste, lower costs and an accelerated overall process.

Article number: 4050.400

Reliable data input

The acceptance of data from CAD systems or the Perforex workshop programming ensures precision and avoids incorrect cutting.

Simple handling

After cutting, the machine stop retracts automatically to release the cut parts for simple removal.

Options

- Hydraulic profile cutter for support rails
- Label printer
- Operation by way of a foot switch

User benefits

- Industrial PC with touchscreen terminal and straight forward user interface
- Very low costs for cutting waste, thanks to optimisation of the cutting process
- Significant time savings compared to manual cutting
- Clean cuts with high-performance tools
- Support rail cutter with 5 standard templates for all popular support rails without changing the template
- Optical and acoustic display for material changes
