Company statement ODS compliance Ozone Regulation (EC) 1005/2009 18.11.2020

Rittal's climate control products meet the Ozone Regulation (EC) No 1005/2009.

The refrigerants used by us are CFC-free HFC refrigerants. They do not contain any chlorine, and have an ozone depletion potential (ODP) of zero.

In particular, Rittal uses the following refrigerants:

- **R134a**
- **R407C**
- **R410A**

These refrigerants are not controlled ODS substances as covered by the Ozone Regulation (EC) No 1005/2009 and do not belong to the halon group of chemicals.

The following Rittal products are filled with refrigerant:

- Enclosure cooling units (R134a)
- Climate control doors, enclosures and side panels (R134a)
- Recooling systems (R134a, R407C or R410A)

All climate control units have hermetically sealed refrigeration circuits.

Please refer to the relevant safety data sheets for more information on the refrigerants used by Rittal.
