

WEEE Compliance – Rittal Reg.-No. 11161726 – Company Statement WEEE Directive 2012/19/EU

We

Rittal GmbH & Co. KG
Auf dem Stützelberg
35745 Herborn
Germany

Confirm Compliance with the WEEE Directive 2012/19/EU (Recast 2002/96/EC).

So far, Rittal has not been a manufacturer of electrical and electronic equipment in the sense of the EU WEEE Directive "WEEE II" 2012/19/EU (Recast 2002/96/EC), because our products are designed for further processing as parts of large-scale stationary industrial tools and large-scale fixed installations.

The expanded scope of WEEE application that came into force on 15.08.2018 and the reorganization of the WEEE product classifications have now led to a reassessment of our position. As a result, the majority of our products are still not subject to WEEE. However, some of the new WEEE categories/B2B may now be relevant.

For precautionary reasons we therefore recently registered in the relevant B2B categories under Rittal WEEE Reg-No. 11161726.

A handwritten signature in black ink, appearing to read "Jürgen Schnaubelt", is written over a horizontal line.
