TopTherm EC fan-and-filter units to be phased out

Dear Customer,

We want our products to always offer you clear advantages. That is why we have revised our range of fan-and-filter units. Please note that the new Blue e+ EC fan-and-filter units are replacing the TopTherm EC fan-and-filter range.

TopTherm EC filter fans will be replaced by the new Blue e+ EC fan-and-filter range as part of this product changeover, starting on 30 April 2025. Blue e+ EC fan-and-filter units are now available ex-stock.

Please note:

- Mounting cut-outs are a like for like 1:1 match with the previous range of fan-and-filter units
- Only the new 3235.460 EC control unit is compatible with Blue e+ EC fan and filter units

Need help switching to the new Blue e+ EC fan-and-filter units? Just use the conversion tool attached which can also be found on our website under the products\product introduction section.

Your local ASM will be happy to assist with any queries relating to the product changeover. For all technical queries relating to our products, the technical support team can be contacted on [01709 704000](tel:01709704000) or by email at csd@rittal.co.uk.

Best regards
