CPD

Data centre Energy efficiency

This seminar involves the different strategies that can be implemented to maximize energy efficiency of the data centre and the potential gains and compromises that could occur.

From simply switching things off to advanced DCIM measurement, this presentation covers a broad spectrum of technologies and processes that can be implemented.

At the end of the seminar, delegates will have an understanding of:

- **Data Networks**
- **Data Centres**
- **Computer rooms**
- **Heating and Ventilation**
- **IT Infrastructure for Building Management**

Target Audience - Including Competence Level:
The course is aimed at all levels of Mechanical Engineers in the positions of Facilities Manager and Engineers, Estates Managers, Electrical Engineers and IT Managers

Duration and Format of Course:
45 min Workshop / power point presentation

Course Locations:
Courses can be presented at consultant and contractor's offices or at our office showroom and demonstration centres in Canary Wharf London & Rotherham South Yorkshire or at Rittal's production factory in Plymouth

Course attendance Fee:
Free of charge
