For mounting on the vertical enclosure section, on two bayed enclosure sections in the vicinity of baying.

#### **Features**

| Model No.       | TS 8800.540   |

| Design          | Width 100 mm, for assembly on two bayed enclosure sections in the baying area.  |
| Benefits        | The cable duct fastening points are co-ordinated with the TS system hole pattern. This eliminates time-consuming drilling work that would be necessary with DIN ducts.  The nominal break points of the bars are also designed for combination with the cable ducts for mounting plates.  A further nominal break at the mounting plate height allows direct entry to the cable duct. |
