SZ 2436.800 - Corrosion protection priming

Single-component primers are ideal to protect against corrosion in areas where the paint has been removed due to cut-outs or similar. This serves to re-create corrosion resistance in the paint-free area. The primer satisfies the requirements of standard IEC 61439 for low-voltage and switchgear assemblies.

Features

| | |
|-----------------------|--|
| Model No. | SZ 2436.800 |
| Product description | Single-component primers are ideal to protect against corrosion in areas where the paint has been removed due to cut-outs or similar. This serves to re-create corrosion resistance in the paint-free area. The primer satisfies the requirements of standard IEC 61439 for low-voltage and switchgear assemblies. |
| Benefits | Excellent adhesion Active corrosion protection Very high filling force |
| Color | Dark gray |
| Content | 12 ml |
| Delivery form | Paint pen |
| Packaging unit | 1 pc(s). |
| Net weight | 0.033 kg |
| Gross weight | 0.034 kg |
| Customs tariff number | 32129000 |
| ETIM 9 | EC001899 |
| ETIM 8 | EC001899 |
| ECLASS 8.0 | 27409253 |
| Product description | SZ Corrosion protection primer, color pen, 12 ml, Colour: Dark grey |
