SK 3313.614 - Connection hose

Flexible connection hose, may be shortened, including union nuts on both sides for connecting the LCP/LCU to existing pipework.

Features

SK 3313.614
Rack cooling CW
The water connection kit provides a simple cooling water connection from the LCU to fixed on-site pipework. The hoses have a 90° bend on one side and a clamping shell on the other side, which allows the hoses to be shortened.
