## DK 7010.120 - Sensors for CMC III, PDU, LCP, IoT interface

Temperature/humidity sensor

#### **Features**

| Model No.  Design  Benefits  Applications  Function principle | Temperature/humidity sensor  Fast connection and automatic detection via plug & play Power is supplied via the CAN-BUS interface.  Enclosure monitoring in IT, industry and facility management Monitoring of enclosures, rooms and containers in the IT environment  The temperature/humidity sensor monitors the ambient temperature and air humidity in the enclosure.  The sensor has an integrated temperature sensor and an integrated air humidity canager. |

|   | air humidity sensor. Settings can be made via the CMC III processing unit or IoT interface   |
| Material  | Plastic  |
| Surface finish  | Front: Smooth<br>Enclosure: Textured   |
| Colour  | RAL 9005   |
| Supply includes   | Sensor<br>Mounting plate<br>Assembly parts   |
| Connection to the CAN bus                                     | Direct   |
| Interfaces  | 2 x RJ45 CAN bus<br>Jack   |
| Dimensions  | Width: 80 mm<br>Height: 30 mm<br>Depth: 40 mm  |
| Operating temperature range                                   |  |

#### **Features**

| Ambient humidity (non-<br>condensing) | 595 %    |
|---------------------------------------|----------|
| Packs of                              | 1 pc(s). |
| Net weight                            | 0.093    |
| Gross weight                          | 0.145    |
| Customs tariff number                 | 90269000 |
| ETIM 9                                | EC002627 |

## **Approvals**

Explanations Declaration of conformity
