IT 7998.910 - RDC IT Container

Ready-to-connect IT infrastructure in a robust container shell, as standardised IT modules in a range of output categories for SME, Cloud and Edge applications.

Features

Model No.	IT 7998.910
Product description	Ready-to-connect IT infrastructure in a robust container shell, as standardised IT modules in a range of output categories for SME, Cloud and Edge applications.
Benefits	Individual container solutions Predefined data centre container variants Predefined components Project planning and complete documentation of all components Short planning phases and delivery times Complete turnkey system
Applications	SME, cloud and Edge applications IT modules for both small output categories and larger HPC applications, may be individually tailored to the required heat loss of the IT equipment
Function principle	The IT modules contain the entire infrastructure for the IT equipment, ready-to-connect for an infrastructure container or conventional infrastructure. In addition to mechanical mounting of the IT equipment in the form of racks, an IT module also contains the power distribution system, cooling systems and monitoring components. An uninterrupted power supply and cooling generation are supplied separately.
Packs of	1 pc(s).
