IT 7998.930 - RDC Cooling Container

Efficient recooling systems in a container frame, ready-to-connect and system-tested with redundant chillers with integral free cooler or additional external free cooler, plus network functions.

Features

Model No.	IT 7998.930
Product description	Efficient recooling systems in a container frame, ready-to-connect and system-tested with redundant chillers with integral free cooler or, depending on the design, additional external free cooler, plus network functions.
Benefits	Individual container solutions Predefined data centre container variants Predefined components Project planning and complete documentation of all components Short planning phases and delivery times Complete turnkey system
Applications	Cooling For individual design or perfectly coordinated to an IT or AIO container
Function principle	Depending on the version, the cooling modules contain one or more chillers, optionally with additional, separate free cooler and control station for cooling generation, ready-to-connect for IT and AIO modules or an existing data centre.
Packs of	1 pc(s).
ETIM 7.0	EC002499
ECLASS 8.0	27180207
