SK 3286.700 - Quick-change frame for roof-mounted cooling units

Together with the seal, the lower part of the alternate frame is screw-fastened to the enclosure. In this way, it is possible to install and remove the connector-ready cooling unit with quick-release fasteners with the upper part of the alternate frame pre-fitted on the cooling unit.

| Model No. | SK 3286.700 |
| Product description | The quick-change frame is more than just an alternate frame. Together with the seal, the lower part of the frame is screw-fastened to the enclosure. In this way, it is possible to install and remove the connector-ready cooling unit with the upper part of the alternate frame previously mounted on the cooling unit with quick-release fasteners. During servicing work, this means shorter assembly times and hence minimised downtime. What is more, the quick-change frame offers effective protection against the ingress of oil into the enclosure in oily atmospheres, thanks to its integral drainage trough. |
