AS 4050.036 - Vacuum clamping system

The vacuum clamping system is an additional clamping device when processing workpieces on the Perforex BC machining centre and Perforex MT milling terminal.

Features

Model No.	AS 4050.036
Product description	The vacuum clamping system supplements mechanical clamping aids such as hand clamps and clamping strips for Perforex Machining Centres BC and Perforex Milling Terminals MT. It enables the secure, flexible fixing of workpieces while actively preventing bulging.
Benefits	Reduces vibrations in panel machining Extended service life of processing tools Prevents large enclosure panels from bulging to ensure precise machining Fixing of offcuts
Technical specifications	The dimensions of the clampable surface are tailored to each machine type.
Supply includes	4 x vacuum support bolts 1 x vacuum system 1 x push button Mounting accessories
Note	The vacuum clamping system is not intended to replace the mechanical clamping system (cam clamps and clamping strips) but provides an additional clamping device to prevent bulging when clamping enclosure panels.

Features

To fit	Perforex Milling Terminal MT 2101 Perforex Milling Terminal MT 2101 S Perforex Milling Terminal MT 2201 Perforex Milling Terminal MT 2201 S Perforex BC 1007 HS Perforex BC 1008 HS
Packs of	1 pc(s).
Net weight	8.5
Gross weight	9.5
