SK 3286.700 - Quick-change frame for roof-mounted cooling units

Together with the seal, the lower part of the alternate frame is screw-fastened to the enclosure. In this way, it is possible to install and remove the connector-ready cooling unit with quick-release fasteners with the upper part of the alternate frame pre-fitted on the cooling unit.

Features

Model No.	The quick-change frame is more than just an alternate frame. Together with the seal, the lower part of the frame is screw-fastened to the enclosure. In this way, it is possible to install and remove the connector-ready cooling unit with the upper part of the alternate frame previously mounted on the cooling unit with quick-release fasteners. During servicing work, this means shorter assembly times and hence minimised downtime. What is more, the quick-change frame offers effective protection against the ingress of oil into the enclosure in oily atmospheres, thanks to its integral drainage trough.		
Product description			
Material	Sheet steel		
Colour	RAL 7035		
Supply includes	Quick-change frame Seal Quick-release fasteners		
To fit Model No.	3359 3382		
Packs of	1 pc(s).		
Net weight	6.65		
Gross weight	6.8		
PCF per pack (cradle-to-gate)	23.6 kg CO2 eq (Cat B)		
Note on PCF category	Category B: PCF value (cradle-to-gate) based on the product weight, approximately calculated and self-declared
