DK 7552.002 - SSC view 8 USB KVM switch

For mounting behind the monitor/keyboard unit.

Features

Model No.	DK 7552.002
Design	SSC view 8 USB
Product description	With this ultra-compact KVM switch for mounting behind a Rittal monitor/keyboard unit, space-saving server administration becomes possible in any IT rack. With the SSC view 8, computers are connected via PS/2 or USB for keyboard and mouse, and VGA for video. Processor-controlled keyboard and mouse emulation for each channel ensures fault-free booting and reliable switching between the connected computers. Because the recooling systems may be mounted on the wall, there is no additional floor space required.
Material	Sheet steel
Surface finish	Powder-coated
Colour	RAL 9006
Supply includes	SSC view 8 USB VGA/PS/2 connection cable, 0.3 m, 2xPS/2 and DB15 (VGA) connector at both ends Connection cable, 0.3 m
Power consumption (approx.)	10 W
Bandwidth	200 MHz
Interface sonsole	VGA (D-Sub HD 15-pole) PS/2 1 x USB
Interface computer	VGA (D-Sub HD 15-pole) PS/2 1 x USB
Voltage supply	12 V DC (from monitor/keyboard unit)

Features

Number of users with password protection	1
Number of computers in stand-alone mode	8
Autoskip	Yes
Autoscan	Yes
Hotkeys for computer selection	Yes
Video resolution max	1280 x 1024 @ 85 Hz
OSD display of channels used	Yes
