SZ 2436.800 - Corrosion protection primer

Single-component primers are ideal to protect against corrosion in areas where the paint has been removed due to cut-outs or similar. This serves to re-create corrosion resistance in the paint-free area. The primer satisfies the requirements of standard IEC 61439 for low-voltage and switchgear assemblies.

Features

| | |
|-----------------------|--|
| Model No. | SZ 2436.800 |
| Product description | Single-component primers are ideal to protect against corrosion in areas where the paint has been removed due to cut-outs or similar. This serves to re-create corrosion resistance in the paint-free area. The primer satisfies the requirements of standard IEC 61439 for low-voltage and switchgear assemblies. |
| Benefits | Exceptional bonding Active protection from corrosion Very high filling force |
| Colour | Dark grey |
| Contents | 12 ml |
| Delivery form | Paint pen |
| Packs of | 1 pc(s). |
| Net weight | 0.033 |
| Gross weight | 0.034 |
| Customs tariff number | 32129000 |
| EAN | 4028177701984 |
| ETIM 9 | EC001899 |
| ETIM 8 | EC001899 |
| ECLASS 8.0 | 27409253 |
