IT 7998.920 - RDC Power Container

Modular UPS systems with redundancy to supply one or more IT modules.

Features

Model No.	IT 7998.920
Product description	Modular UPS systems in a robust container shell with redundancies, to supply one or more IT modules or an existing data centre.
Benefits	Individual container solutions Predefined data centre container variants Predefined components Project planning and complete documentation of all components Short planning phases and delivery times Complete turnkey system
Applications	UPS (uninterruptible power supply) For individual design or perfectly coordinated to an IT or AIO container
Function principle	The power modules contain one or more UPS systems with corresponding sub-distribution and infrastructure, ready-to-connect for IT and AIO modules or an existing data centre. In addition to the integral emergency power supply with corresponding batteries and sub-distribution, a power module also contains the requisite cooling system.
Packs of	1 pc(s).
Customs tariff number	85371098
ETIM 9	EC002499
ECLASS 8.0	27180207
