## Rittal – The System.

Faster - better - everywhere.

# CP 6372.561 Comfort Panel

State: 20/06/2025 (Source: rittal.com/ro-ro)

#### CP 6372.561 - Comfort Panel

Aluminium enclosure, high thermal conductivity for optimum passive heat dissipation. Low weight coupled with high stability. Protection category IP 65 to IEC 60 529.

#### **Features**

| Model No.          | CP 6372.561   |
|--------------------|---|
| Design             | Support arm connection, rectangular 120 x 65 mm             |
| Benefits           | Aluminium enclosure, high thermal conductivity for optimum  |
|                    | passive heat dissipation.                                   |
|                    | Low weight coupled with high stability                      |
|                    | Compatible with all Rittal stand and support arm systems    |
| Material           | Enclosure: Extruded aluminium section                       |
|                    | Corner pieces: Die-cast zinc                                |
|                    | Corner protectors: Plastic                                  |
| General colour     | Natural anodised  |
| Colour             | Enclosure: Natural anodised                                 |
|                    | Corner pieces: RAL 7035                                     |
|                    | Corner protectors: similar to RAL 7024                      |
| Supply includes    | Enclosure with cut-out for support arm connection           |
|                    | 3 mm double-bit lock insert may be exchanged for 41 mm lock |
|                    | inserts, plastic handles and T handles, type C              |
|                    | Seals and assembly parts for front panels                   |
|                    | Hinged rear panel, hinging on the longest side              |
| Installation depth | 74 mm   |
