# DK 7030.260 - Door kit extension for TS IT

Spindle motor system, allowing the door to be opened in any emergency situation. The door kit is connected and activated using the corresponding door control module.

## Features

|                       |  |
|-----------------------|--|
| Model No.             | DK 7030.260  |
| Product description   | For automatic opening of the rack doors in emergency situations, in applications with under-pressure in the rack. The door kit extension must be connected and activated in combination with the door kit via the door control module. |
| Applications          | Applications with underpressure in the rack, such as LCP or powerful server fan motors   |
| Function principle    | The motor pushes the door open until the underpressure is released.  |
