DK 7280.035 - Junction box with multi-functional bracket

The junction box for attachment to the TS 8 frame section or to rail systems serves as a transfer point for the power supply to all equipment such as fan-and-filter units, system lights and socket strips.

Features

Model No.	DK 7280.035
Product description	The angle bracket can be installed in all network enclosures in a system-compatible design. The junction box serves as a transfer point for the power supply to all equipment (fans, lights and socket strips). As well as being used as a junction box or interchange point, the bracket may also accommodate the thermostat (SK 3110.000) or the hygrostat (SK 3118.000) thanks to its integral holes.
