# SV 9674.550 - Wiring trim panel

Wiring system for Ri4Power with internal compartmentalisation

## Features

|                       |                                                                                                                                                                                                                                                      |
|-----------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Model No.             | SV 9674.550                                                                                                                                                                                                                                          |
| Product description   | Inner front cover of the main busbar system with the option of mounting a wiring channel W x D 40 x 20 mm. Suitable for use in Ri4Power switchgear with 300 mm high front trim panels. Horizontal cable routing occurs behind the front trim panels. |
| Material              | Sheet steel                                                                                                                                                                                                                                          |
| Surface finish        | Zinc-plated                                                                                                                                                                                                                                          |
| Supply includes       | Assembly parts                                                                                                                                                                                                                                       |
| Note                  | For vertical cable routing, mounting brackets for compartment dividers and circuit-breaker support rails enable the installation of a wiring channel, thanks to pre-punched cut-outs.                                                                |
| To fit                | Width: = 400 mm<br>= 600 mm                                                                                                                                                                                                                          |
| Packs of              | 1 pc(s).                                                                                                                                                                                                                                             |
| Net weight            | 1.2                                                                                                                                                                                                                                                  |
