# SK 3124.100 - Master/slave cable for SK BUS system

The SK BUS system allows several cooling units and air/water heat exchangers with e-Comfort controller to communicate with one another. The master/slave assembly ensures an optimum operating result for complex bayed enclosure systems.

## Features

|                          |  |
|--------------------------|--|
| Model No.                | SK 3124.100  |
| Product description      | The SK BUS system allows several cooling units and air/water heat exchangers with e-Comfort controller to communicate with one another Master-slave configuration for complex bayed enclosure systems, for optimum operating results.                                    |
| Technical specifications | The master-slave layout facilitates common activation and deactivation via door limit switches, parallel activation and deactivation via a temperature setpoint, and common collective fault signals and temperature logging, eliminating the need for intricate wiring. |
| Supply includes          | 3 m shielded interface cable<br>Operating instructions on programming the cooling units  |
| Packs of                 | 1 pc(s).   |
| Note                     | $nB = nK - 1$<br>nB: Number of order units (SK BUS system)<br>nK: Number of cooling units to be linked   |
| Net weight               | 0.15 kg  |
| Gross weight             | 0.221 kg   |
| Customs tariff number    | 85444290   |
| ETIM 9                   | EC002620   |
| ETIM 8                   | EC002620   |
| ECLASS 8.0               | 27189261   |
