### TS 8612.090

# TS punched section with mounting flange, 17 x 73 mm

State: 7/12/2025 (Source: rittal.com/uk-en)

## TS 8612.090 - TS punched section with mounting flange, $17 \times 73 \text{ mm}$

For universal skeleton structures or partial assembly. Simply locate into the punchings and secure.

#### **Features**

Product description  For universal skeleton structures or partial assembly. Simply local into the punchings and secure.  Material  Sheet steel  Surface finish  Zinc-plated  Assembly screws  Length  890 mm  To fit door width  1,000 mm  On the vertical TS, VX SE enclosure section: On the inner mounting level, height-offset all-round On the horizontal VX SE enclosure section, top in the depth In TP via rail for interior installation: In the width, for inner mounting level As a mounting kit for component shelves in TS, VX SE, simply local and secure		
Product description  For universal skeleton structures or partial assembly. Simply local into the punchings and secure.  Material  Sheet steel  Surface finish  Zinc-plated  Supply includes  Assembly screws  Length  890 mm  To fit door width  1,000 mm  On the vertical TS, VX SE enclosure section: On the inner mountin level, height-offset all-round On the horizontal VX SE enclosure section, top in the depth In TP via rail for interior installation: In the width, for inner mountin level As a mounting kit for component shelves in TS, VX SE, simply local and secure	Model No.	TS 8612.090
into the punchings and secure.  Sheet steel  Surface finish  Zinc-plated  Supply includes  Assembly screws  Length  890 mm  To fit door width  1,000 mm  On the vertical TS, VX SE enclosure section: On the inner mountin level, height-offset all-round On the horizontal VX SE enclosure section, top in the depth In TP via rail for interior installation: In the width, for inner mountin level As a mounting kit for component shelves in TS, VX SE, simply located and secure	Design	For mounting on doors
Surface finish  Zinc-plated  Assembly screws  Length  890 mm  To fit door width  1,000 mm  On the vertical TS, VX SE enclosure section: On the inner mountin level, height-offset all-round On the horizontal VX SE enclosure section, top in the depth In TP via rail for interior installation: In the width, for inner mountin level As a mounting kit for component shelves in TS, VX SE, simply loc and secure	Product description	For universal skeleton structures or partial assembly. Simply locate into the punchings and secure.
Assembly screws  Bupply includes  By 0 mm  To fit door width  I,000 mm  On the vertical TS, VX SE enclosure section: On the inner mountin level, height-offset all-round On the horizontal VX SE enclosure section, top in the depth In TP via rail for interior installation: In the width, for inner mountin level As a mounting kit for component shelves in TS, VX SE, simply locand secure	Material	Sheet steel
Length 890 mm  To fit door width 1,000 mm  On the vertical TS, VX SE enclosure section: On the inner mountin level, height-offset all-round On the horizontal VX SE enclosure section, top in the depth In TP via rail for interior installation: In the width, for inner mountin level As a mounting kit for component shelves in TS, VX SE, simply located and secure	Surface finish	Zinc-plated
To fit door width  1,000 mm  On the vertical TS, VX SE enclosure section: On the inner mountin level, height-offset all-round On the horizontal VX SE enclosure section, top in the depth In TP via rail for interior installation: In the width, for inner mountin level As a mounting kit for component shelves in TS, VX SE, simply located and secure	Supply includes	Assembly screws
On the vertical TS, VX SE enclosure section: On the inner mountin level, height-offset all-round On the horizontal VX SE enclosure section, top in the depth In TP via rail for interior installation: In the width, for inner mountin level As a mounting kit for component shelves in TS, VX SE, simply located and secure	Length	890 mm
level, height-offset all-round On the horizontal VX SE enclosure section, top in the depth In TP via rail for interior installation: In the width, for inner mountil level As a mounting kit for component shelves in TS, VX SE, simply located and secure	To fit door width	1,000 mm
and secure	Installation options	On the horizontal VX SE enclosure section, top in the depth In TP via rail for interior installation: In the width, for inner mounting level
Assembly instruction The rail for internal mounting is required when installing in TP		
	Assembly instruction	The rail for internal mounting is required when installing in TP
