SK 3176.000 - Front outlet grille 2 U for tangential fans

Front outlet grille 2 U for blower fans to expel the hot air to the outside from the upper section of the enclosure. Two grilles can be used for natural convection.

Features

Model No.	SK 3176.000
Product description	This front outlet grille is required if a 482.6 mm (19") cross-flow blower (SK 3144.000/SK 3145.000) is used in the lower section of the electronic enclosure and the hot air is to be expelled to the outside from the upper section of the enclosure. The design of the grille matches that of the intake grille in the cross-flow blower. These grilles can also be used as simple inflow and outflow grilles with natural convection.
Packaging unit	1 pc(s).
Net weight	0.35
Gross weight	0.36
Customs tariff number	39269097
