# SK 3286.620 - Metal filters

The use of washable metal filters is recommended, particularly in environments with dusty or oily ambient air. If air or steam condenses on the metal surfaces, any particles that may be present will adhere to the metal and are easily washed out with water or grease-dissolving detergents.

## Features

|                        |  |
|------------------------|--|
| Model No.              | SK 3286.620  |
| Product description    | When cooling units are used in dusty and oily environments, it is advisable to use washable metal filters. If air or steam condenses on the metal surfaces, any particles present will adhere to the metal. These filters can easily be washed out with water or grease-dissolving solvents. |
