SK 3313.268 - Liquid Cooling Package LCP Rack CW, LCP Rack CWG

Cooling via high-performance compact impellers. The LCP draws in air from the side at the rear of the server enclosure and blows the cooled air back into the front part of the server enclosure from the side.

Features

Model No.	SK 3313.268
Version	CW

Features

Benefits	<p>Maximum energy efficiency due to EC fan technology and IT-based control</p> <p>Minimal pressure loss at the air end, which in turn minimizes the power consumption of the fans</p> <p>Control of the server inlet temperature</p> <p>Redundant temperature sensor integrated at the air end</p> <p>Optimum adaptability due to dynamic, continuous control of the cold water volume flow</p> <p>By using high water inlet temperatures, the proportion of indirect free cooling is increased, which in turn reduces operating costs</p> <p>Targeted cooling output thanks to modular fan units</p> <p>Fan modules configurable as n+1 redundancy.</p> <p>The separation of cooling and enclosure prevents water from entering the server enclosure</p> <p>A maximum floor area of 0.36 m² for all cooling services</p> <p>Improved heat recovery due to high water return temperatures when using the LCP CW glycol variants, for example in conjunction with a heat pump</p> <p>Optimum access for maintenance and service from the front and the rear</p> <p>Tool-free fan module replacement</p>
Function principle	<p>The LCP draws in the air at the sides at the rear of the server enclosures, cools it using high-performance compact impellers, and blows the cooled air back into the front part of the server enclosure at the sides</p>
Material	<p>Carbon steel, spray finished</p>
Surface finish	<p>RAL 9005, fine structure matt</p>
Color	<p>RAL 9005</p>
Options	<p>Fully integrated fire detection and extinguisher system</p> <p>Automatic server enclosure door opening</p> <p>Direct connection of additional CMC III sensors is also possible</p> <p>Racks 2200 mm high</p>
Version	<p>Rack cooling</p>
Monitoring	<p>Monitoring of all system-relevant parameters such as server air intake temperature, server waste air temperature, water inlet/return temperature, water flow, cooling output, fan speed, leakage.</p> <p>Direct connection of the unit via SNMP over Ethernet</p> <p>Integration into RiZone</p>

Features

Total cooling output/number of fan modules	48 kW/4 51 kW/5 53 kW/6 163,783 BTU/h 174,019 BTU/h 180,844 BTU/h
Air throughput (unimpeded air flow)	At 60 Hz: 8,000 m³/h At 60 Hz: 4,708.6 cfm
Number of fan modules in supplied state	6
Dimensions	Width: 300 mm Height: 2,000 mm Depth: 1,200 mm Width: 11.8 " Height: 78.7 " Depth: 47.2 "
Suitable for enclosure type	VX IT TS IT PRO
Installation in bayed enclosure suite	Flush
Rated operating voltage	200 V - 240 V, 1~, 50 Hz/60 Hz 200 - 240 V AC
Max. cooling output	53 kW 180,844 BTU/h
Type of connection (electrical)	Connector
Duty cycle	100 %
Cooling medium	Water
Cooling medium note	Water quality according to unit specifications.
Temperature control	Infinitely variable fan control 2-way control ball valve
Water connections	DN 40 (G 1½" external thread)
Permissible operating pressure (p. max.)	10 bar 145 PSI

Features

Water inlet temperature	15 °C 59 °F
Protection category IP to EN 60529	IP 20
Options	Fully integrated fire detection and extinguisher system Automatic server enclosure door opening Direct connection of additional CMC III sensors is also possible Racks 2200 mm high
Packaging unit	1 pc(s).
Net weight	224
Gross weight	237.5
Customs tariff number	84186900
EAN	4028177962767
ETIM 9	EC002515
ETIM 8	EC002515
ECLASS 8.0	27180712

Approvals

Approvals	UR + C-UR (recognized)
Explanations	Declaration of conformity
