SK 3313.538 Liquid Cooling Package

State: 12/7/2025 (Source: rittal.com/us-en)

SK 3313.538 - Liquid Cooling Package LCP Inline CW, LCP Inline CWG

Bayed climate control designed for siting within a bayed enclosure suite. The hot air is extracted at the rear of the unit, cooled and then expelled forwards to the cold aisle.

Features

Model No.	SK 3313.538
Version	CW
Benefits	Maximum energy efficiency due to EC fan technology and IT-based control
	Minimal pressure loss at the air end, which in turn minimizes the power consumption of the fans
	Optimum adaptability due to dynamic, continuous control of the cold water volume flow
	By using high water inlet temperatures, the proportion of indirect
	free cooling is increased, which in turn reduces operating costs
	Targeted cooling output thanks to modular fan units
	Fan modules configurable as n+1 redundancy.
	Redundant temperature sensor integrated at the air end
	The separation of cooling and enclosure prevents water from entering the server enclosure
	A maximum floor area of 0.36 m² for all cooling services
	Improved heat recovery due to high water return temperatures when
	using the LCP CW glycol variants, for example in conjunction with a heat pump
	Optimum access for maintenance and service from the front and the rear
	Tool-free fan module replacement

Features

Function principle	The hot air is drawn in from the room or hot aisle at the rear of the device and expelled at the front into the cold aisle after cooling. With this product, a raised floor is not necessary
Material	Carbon steel, spray finished
Surface finish	RAL 9005, fine structure matt
Color	RAL 9005
Options	Direct connection of additional CMC III sensors is also possible Racks 2200 mm high
Version	Row Cooling
Monitoring	Monitoring of all system-relevant parameters such as server air intake temperature, server waste air temperature, water inlet/return temperature, water flow, cooling output, fan speed, leakage. Direct connection of the unit via SNMP over Ethernet Integration into RiZone
Total cooling output/number of fan modules	10 kW/1 20 kW/2 30 kW/3 34,121 BTU/h 68,243 BTU/h 102,364 BTU/h
Air throughput (unimpeded air flow)	At 60 Hz: 6,500 m³/h At 60 Hz: 3,825.8 cfm
Number of fan modules in supplied state	4
Dimensions	Width: 300 mm Height: 2,000 mm Depth: 1,200 mm Width: 11.8 " Height: 78.7 " Depth: 47.2 "
Suitable for enclosure type	VX IT TS IT PRO
Installation in bayed enclosure suite	Protruded
