AS 4051.214 - Wire rail system WT 15

The 15-fold wire rail system is used for sorted wire output in wire rails. Up to 2100 wires can be stocked for each project.

Features

| | |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Model No. | AS 4051.214 |
| Product description | The 15-fold wire rail system is used for sorted wire output in wire rails. Up to 2100 wires can be stocked for each project. |
| Benefits | Project-related commissioning for downstream processes Project-related sorting of wires Optimal removal handling Rail system prepared for optimal workplace picking No wire sorting required Simplifies wiring process with step-by-step instructions in Eplan Smart Wiring Optimal in combination with the Wire Cart for perfect workstation commissioning Sequential wire production in WT wire bars |
| Technical specifications | Also possible in combination with the WT chain bundle module option Includes modern RFID technology |
| Supply includes | Wire rail system WT 15 |
| Suitable for Model No. | 4051.205 4051.210 |
| Packaging unit | 1 pc(s). |
| Net weight | 90 kg |
| Gross weight | 95 kg |
| Customs tariff number | 76169990 |
