SZ 4583.500 - Door stay for escape routes

In case of emergency, a conventional door stay may block a potential escape route. This stay is automatically released when pressure is applied, the door can be opened in both directions. When used in conjunction with 180° hinges, this door stay ensures a clear escape route in the event of emergency.

Features

Model No.	SZ 4583.500
Product description	In an emergency situation, conventional door stays could block the escape route. The stay is automatically released when pressure is applied, and the door can be opened in both directions. In conjunction with 180° hinges, this ensures that no escape routes are blocked by locked doors in the event of an emergency.
