## VX 5302.038 - Angle bracket for combination rail

For variable mounting of combination rails between two punched sections with mounting flanges in the enclosure interior.

#### **Features**

| Model No.                           | VX 5302.038                                                                                                              |
|-------------------------------------|--------------------------------------------------------------------------------------------------------------------------|
| Product description                 | For variable mounting of combination rails between two punched sections with mounting flanges in the enclosure interior. |
| Benefits                            | Flexible fastening via the elongated holes between the attachment points                                                 |
| Applications                        | Supports combination with fan mounting plate for VX IT                                                                   |
| Material                            | Carbon steel                                                                                                             |
| Surface finish                      | Zinc-plated                                                                                                              |
| Supply includes                     | Assembly components                                                                                                      |
| Packaging unit                      | 8 pc(s).                                                                                                                 |
| Net weight                          | 0.36                                                                                                                     |
| Gross weight                        | 0.4                                                                                                                      |
| PCF/VE (cradle-to-gate)             | 1 kg CO2 eq (Cat B)                                                                                                      |
| Information regarding the PCF class | Category B: PCF value (cradle-to-gate) calculated approximately on the basis of the product weight and self-declared     |
