CP 6212.060 Support Profile, Height-Adjustable

State: 9/7/2025 (Source: rittal.com/us-en)

CP 6212.060 - Support Profile, Height-Adjustable for support arm systems

The new height-adjustable support section always provides the right view of the key parameters in human/machine interaction. The system can be fitted directly to the components of the CP 120 support arm system on the wall side, and to the CP 60 support arm system on the enclosure side without further adaption.

Features

| Model No. | CP 6212.060 |
|---------------------|---|
| Product description | The new height-adjustable support profile, always provides the right view of the key parameters in human/machine interaction. On the wall side, the system can be fitted directly to the components of the CP 120 support arm system without any further adaptation, and on the enclosure side, either to support arm system CP 60 or CP 120, depending on the model. |
| Benefits | Support arm holds in every position |
| | Additional fixing via clamping levers possible |
| | Precise adjustment to the trailing load through an adjusting screw |
| | on the front of the support profile |
| | Adjusting screw can be accessed without dismantling any components |
| | Safety through large cable troughs and cable guides at the swing points |
| | Removable side panel for easy access to the cable routing |
| | Tilting angle of the mounted housing is identical in every height position |
| | Cables with connectors such as DVI and VGA are also easily inserted |
| | Broad weight range from 4 to 60 kg with three systems. (Weight range applies to configured enclosure and vertical support section) |
