CP 6212.120 Support Profile, Height-Adjustable

State: 12/9/2025 (Source: rittal.com/us-en)

CP 6212.120 - Support Profile, Height-Adjustable for support arm systems

The new height-adjustable support section always provides the right view of the key parameters in human/machine interaction. The system can be fitted directly to the components of the CP 120 support arm system on the wall side, and to the CP 120 support arm system on the enclosure side without further adaption.

Features

Model No.	CP 6212.120	
Product description	The new height-adjustable support profile, always provides the right view of the key parameters in human/machine interaction. On the wall side, the system can be fitted directly to the components of the CP 120 support arm system without any further adaptation, and on the enclosure side, either to support arm system CP 60 or CP 120, depending on the model.	
Benefits	Support arm holds in every position	
	Additional fixing via clamping levers possible	
	Precise adjustment to the trailing load through an adjusting screw on the front of the support profile	
	Adjusting screw can be accessed without dismantling any components	
	Safety through large cable troughs and cable guides at the swing points	
	Removable side panel for easy access to the cable routing	
	Tilting angle of the mounted housing is identical in every height position	
	Cables with connectors such as DVI and VGA are also easily inserted	
	Broad weight range from 4 to 60 kg with three systems. (Weight range applies to configured enclosure and vertical support section)
