# DK 7030.022 CMC III Processing Units

State: 8/2/2025 (Source: rittal.com/us-en)

## DK 7030.022 - CMC III Processing Units

The CMC III Processing Unit 19" Edition is the central unit of the CMC III monitoring system. Up to 16 external sensors / CAN bus connection units can be connected to it. The unit can be connected to the data network via Ethernet, configured via Web / USB, send alarms via an email server, and be connected to the network management system of a company via SNMP.

#### **Features**

| Model No.          | DK 7030.022  |  |  |
|--------------------|--|--|--|
| Version            | 482.6 mm (19") version   |  |  |
| Benefits           | High redundancy due to redundant power supply.  Cost savings from optimized space utilization and connection system  |  |  |
| Applications       | Enclosure monitoring in IT, industry and facility management   |  |  |
| Function principle | Central monitoring unit for the CMC III system.  Direct connection of the unit via SNMP over Ethernet  Collects measurement data and alerts network management  systems or control rooms when freely adjustable limit values are exceeded. |  |  |
| Version            | Piezo transducer for acoustic information Time function through real-time clock with NTP   |  |  |
| Material           | Plastic<br>Aluminum section, black anodized  |  |  |
| Surface finish     | Front: Smooth<br>Housing: Textured   |  |  |
|                    |  |  |  |

## **Features**

| Color                    | Housing: RAL 7035   |  |
|--------------------------|---|--|
|                          | Front: RAL 9005   |  |
| Supply includes          | CMC III Processing Unit                                       |  |
|                          | Basic system  |  |
|                          | Integrated display  |  |
|                          | Incl. assembly parts for mounting on surfaces                 |  |
| Interface bus system     | RJ45 CAN bus  |  |
| Alarm relay output       | Terminal up to 1.5 mm² (max. 24 V DC/1 A)                     |  |
| Mobile website           | For Android and Windows phones                                |  |
| Network interface        | Ethernet in line with IEEE 802.3 via 10/100 BaseT Full-Duplex |  |
|                          | 10/100 Mbit/s, PoE  |  |
| Interface UPS            | PoE (Power over Ethernet)                                     |  |
| Serial interface         | RJ12  |  |
| Interface streaming      | Axis network camera with VAPIX® version 3                     |  |
| Number of sensors (max.) | 16  |  |
| Note                     | For increased network security, unencrypted protocols can be  |  |
|                          | disabled  |  |
| LED displays (rear)      | Network status  |  |
| LED displays (front)     | Status  |  |
|                          |   |  |
