TS 7829.400 - Kit for separate frame TS

Kit for separate TS frame.

Features

Model No.	TS 7829.400
Product description	Each TS frame can easily be converted into a demountable rack. In this case, the frame profiles in the roof frame and base frame must be divided in two either in the width or the depth. The four connection components are inserted in the frame profile and screwed in place. The external dimensions of the frame remain unchanged.
Supply includes	Assembly components
Note	The maximum achievable IP protection category is restricted by separation of the frame.
