DK 7890.247 - RFID Aerial Systems

The RFID aerial system can be installed on the side of 19" profiles on TS IT racks. It can read and write the RFID tags attached to 19" components. Position detection of the components is accurate to within 1/3 U, for this reason there are 3 aerial elements and signaling LEDs integrated into each height unit. The installation position of the components is correctly recognized even if they are not located precisely in the height hole pattern. Reading and writing of the RFID tags is always signaled by one LED.

Features

Model No.	DK 7890.247
Version	47 U
Packaging unit	1 pc(s).
Net weight	0.96
Gross weight	1.18
Customs tariff number	85177100
EAN	4028177686489
ECLASS 8.0	27189253

Approvals
