IT 7998.920 - RDC Power Container

Modular UPS systems with redundancies for the supply of one or more IT modules.

Features

Model No.	IT 7998.920
Product description	Modular UPS systems in a robust container cover with redundancies for the supply of one or more IT modules or an existing data center.
Benefits	Individual container solutions Predefined Data Center Container variants Predefined components Project planning and complete documentation of all components Short planning phase and delivery time Complete turnkey system
Applications	UPS uninterruptible power supply For individual design or perfectly tailored to an IT or AIO container
Function principle	The power modules contain one or more USP systems with corresponding sub-distribution and infrastructure, ready for connection for IT modules or an existing data center. In addition to the integrated emergency power supply with associated battery and sub-distribution, a power module also contains the required cooling system.
Packaging unit	1 pc(s).
Customs tariff number	85371098
ETIM 9	EC002499
ECLASS 8.0	27180207
