

A future-proof network/server rack enclosure system?

TOP 5 REASONS

TO CHOOSE THE TS IT PRO

Welcome to a better way to quickly adapt IT infrastructures to the growing demands of complex challenges. Flexible and scalable in size performance, and security, the U.S.-made TS IT Pro enclosure is built to handle tomorrow's trends, including high-density cooling and power distribution.

1

Easy to Order — Ready to Ship

Standard sizes are in stock in multiple locations and ready to ship quickly to your data center to support deployment in any location. The TS IT Pro can be tailored for your application, complete with installed accessories.

“What’s in it for me?” — Fast and easy deployment is always welcome, especially when you’re getting IT enclosures that fit your exact needs.

2

Engineered as an Optimized System

Ships complete with perforated single front door and split rear doors, adjustable 19-inch EIA rails, leveling feet, casters, roof with brush baffle cable access channels, and vertical cable walls with dual PDU mountings.

“What’s in it for me?” — The TS IT Pro’s optimized system provides proper air flow and efficient cable management.

3

Installation Flexibility

Quick-release, easy-to-remove doors increase workspace area. Vertical rails easily adjust to accommodate varying depths of equipment. Access leveling feet adjustment from inside the rack to drop and go.

“What’s in it for me?” — Enjoy unhindered access, additional workspace, and a reduction of labor on site during installation.

4

Proven Frame Construction

The TS IT Pro’s fully welded frame and structural design allow for shipping of equipment already installed.

“What’s in it for me?” — Bring on the heavy equipment loads! Know that the TS IT Pro can handle it all.

5

Your Need — This Solution

Single rack and distributed Edge deployments. Multi-tenant, cloud, and hyperscale data center.

“What’s in it for me?” — No matter what your need, TS IT Pro enclosures are ready.

Designed to handle today’s demands — as well as tomorrow’s increasing rack density and load capacity requirements — the U.S.-made TS IT Pro is as “future-proof” as any IT enclosure system can be. Learn more today at rittal.com/ts-it-pro/en/pro, or call (847) 240-4630.

WHY RITTAL?

Rittal North America, LLC is the world’s largest manufacturer of IT enclosures, rack systems, and accessories, including cooling solutions and power management systems for industrial, data center, outdoor, and hybrid applications. The TS IT Pro is the culmination of 50 years of experience and customer feedback.
